

# www.RainOutHotline.com

“The rain out hotline is a major improvement to our baseball program. We can give instant notification to all members of field conditions in minutes without making one phone call. The status can be updated while standing on the field.”

“The rain out hotline saved the association a considerable amount of time and miss-communications. We were able to contact every one of our members in a short amount of time wherever they were. Even if the families have left for the ballpark or are just not at home to receive an e-mail message, they still stay informed with a text message. This saves our members time and unnecessary trips to the park.”

“With our previous phone message system the customer had to call in to get a status. In the summer with thunderstorms rolling in, it could change by the minute. With kids playing at multiple locations, you could be at one park and find the status of another child’s game or practice without a coach having to call every player.”

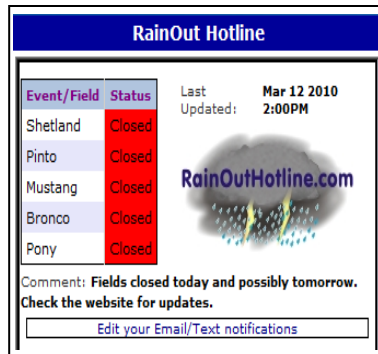

“The RainOutHotline is a great help to any activity involving any size group activity. But more importantly your customer service to our park and our needs have been excellent. Thank you for your hard work, I would recommend this service over the old antiquated phone service any day.”

- Shaw Park Baseball  
Marietta, GA

The **Rain Out Hotline** is the new standard in weather related status updates for baseball, soccer and other sports associations. No more phone chains or out of date web page statuses. And what happens when the status changes after you have left for the park? Let us send an email AND a text message to your members instantly when you close the fields.

- **Proactive** notifications give the status to all parents immediately.
- **Free to the park** and free to the families.
- **Multiple fields** with status by field.
- Easily place the status widget on **your website** (see figure below).
- **Update the status** on your web-enabled cell phone
- **Multiple** email and cell-phone numbers per family

The Rain Out Hotline displays your field status on your website.

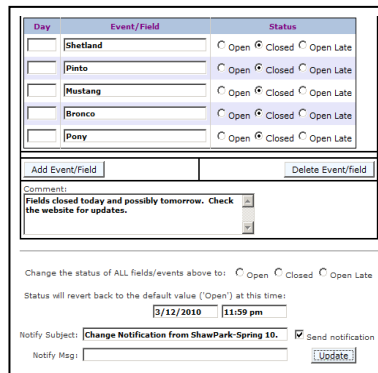

The status widget on your website

Easily update your field status using our website, or your web-enabled cell phone.

Parents can click on a link from the status screen to update their email and cell phone information.

As soon as the field status changes, every member of the park also knows. The fields can be closed for several days, or will automatically reset at midnight so no one must remember to open the fields again.

Complete control over multiple fields. Some may be open and some may be closed. A cell-phone optimized status update allows you to update the field status while at the park - no need to be at a computer to close the fields.

Update the status using cell phone or web
